The Calm Guide to Writing

A short document that exercises **everything** a real export needs: *emphasis*, `inline code`, links, footnotes[1], tables, code, quotes, task lists and images.

Principles

> *Good tools disappear. What remains is the work.*

1. Keep the interface quiet.
2. Make the common path fast.
3. Never lose a word.

- [x] Draft the outline
- [ ] Write the conclusion

Data

Feature	Status	Notes
Live mode	Done	21 tests
Scroll sync	Done	< 0.03 lines
PDF export	Done	Paged.js

Code

```
export function greet(name: string): string {
  // A comment
  return `Hello, ${name}!`;
}
```

Appendix

Longer prose to show pagination, widows and orphans. Longer prose to show pagination, widows and orphans.
